swilliamson@bergersingerman.com

201 East Las Olas Blvd.
Suite 1500
Fort Lauderdale, FL 33301

Stephen Williamson serves as Chief Information Officer at Berger Singerman, where he contributes to the management of the firm's technology strategy, cybersecurity posture, and information systems supporting attorneys and staff across all offices.

With more than 20 years of experience in law firm technology, Stephen leads the implementation and support of the firm's information, communications, and security systems. He also directs the firm's technology team and partners with firm leadership to align initiatives to business objectives, risk management, and client service expectations.

He is a member of the International Legal Technology Association (ILTA) and International Information System Security Certification Consortium (ISC2), the world's leading cybersecurity professional association. Stephen earned his B.A. in Management of Information Systems from Florida International University.
